## A & B Solution – Fake Blood

### Specifications

Volume: 60ml per bottle

Packaging Type: Bottle

Additional Information:

**A skin test should always be performed before use to determine any sensitivity**

**Keep away from eyes and mouth.**

**Do not ingest.**

**Use separate cotton buds for the different solutions.**

**Easy to clean up with hand cleaner.**

**Can stain skin / fabrics**

A & B Solution is MTFX's fake blood easy to apply, it creates a realistic fake blood effect. It can be used on props to create a realistic cutting and bleeding effect. The solutions easily wash off, but should not be mixed unless wishing to create the effect.

How to use A & B Solution –

1. Carefully open A solution bottle and dip a cotton bud into the liquid. Sparingly coat the area you wish the bleed to happen. (fig:2)
2. Carefully open B solution and dip a cotton bud into the liquid. Sparingly coat the prop you wish to create the effect with. (fig:3)
3. Use the prop on the area that you wish to 'bleed'. (fig:4) The two solutions mix together to create the bleeding effect.
4. Easily clean up any liquid left on the prop or desired area of effect.
