140 x 45 x 45mm

Weight: 120ml

Packaging: Spray Bottle

Additional Information:

**Easy to clean up**

**Very realistic**

**Avoid contact with eyes**

**Do not ingest**

MTFX's Dew effect is a fantastic way to add a realistic looking condensation effect to any; bottle, window, etc. area you require. Its easy to use and just as easy to clean up after using! It will last for as long as you need it and is designed to be effective even under hot studio lights.

How to use MTFX's Dew Effect;

1. Shake the bottle.
2. Remove the cap and point 20-30cms away from the surface you wish to mist.
3. Spray the surface with the mist and cover as much area as you require.
4. The spray will run and the bottle will be coated in a condensation like moisture.
5. To clean, simply use a wet wipe or damp cloth and remove the liquid from the surface.
