250 x 55x 55mm

Weight: 400ml

Packaging: Canister

Additional Information:

**Easy to clean up**

**Avoid contact with eyes**

**Do not ingest**

**Fantastic companion product for Frost and Cobweb Effect!**

MTFX's Eco Anti Spot is a fantastic product that will dull reflecting light from a shiny surface. If you are in a studio the lighting can glare off of things such as glass bottles etc. With Eco Anti Spot it dulls that reflection meaning no more glare. It is also a fantastic companion product to our Frost and Cobweb Effects, once primed with Eco Anti Spot it makes removal of those effects even easier!

1. Remove the cap from the canister.
2. Shake the Eco Anti Spot canister well.
3. Spray onto the area which has light glare.
4. The effect settles instantly onto the effect area.
5. It will last for days, and is easy to remove just use a dry cloth!
