Technical Datasheet

Handheld Disposable Streamer Cannons

Specifications:

Length: 300mm, 500mm
or 800mm

Width: 25mm

Weight: 200g, 400g or
600g each

Shipping weight: 200g,
400g or 600g each

Packaging type: each

Additional information:

Tissue Streamers are
biodegradable.

Tested as 'fire retardant'
in accordance with
NEN-EN-ISO-6941

Tested at 91db at 3
metres

Up to 15 seconds fall
time depending on the
size of the cannon.

How to set up and use the Handheld Cannons:

1. Holding the unit upright, carefully remove the top seal or cap
2. Hold the top half of launcher tightly
3. Twist the bottom of the launcher sharply to the left

Safety:

Don't point launchers directly at people
The launchers make a 'pop' sound; be aware if
small children or animals are nearby.
Streamers can get caught in lights and trusses, take
care with directing them.

Cannon Size	Max Firing Distance (Approx.)
30cm	5meters
50cm	8meters
80cm	12meters
