Tissue confetti is  
biodegradable.

Tested as 'fire retardant'  
in accordance with  
NEN-EN-ISO-6941

Tested at 91db at 3  
metres

Up to 15 seconds fall  
time depending on the  
size of the cannon.

MTFX handheld reusable confetti cannons are an effective way to achieve an eye catching confetti fall at an inexpensive price.

### How to set up and use the Handheld Reusable Confetti Cannon:

1. Simply screw in an 8g or 16g CO2 cylinder (supplied separately) (Fig.1)
2. Fill the tube with confetti blocks (supplied separately) or small glitter confetti.
3. Point the cannon upwards and away from people, animals and obstacles.
4. Sharply pull the cord (Fig.2) to fire. Must be sharp and firm to release the CO<sub>2</sub>

### Hints/Tips/Safety:

Don't point launchers directly at people or animals. The launchers make a 'pop' sound; be aware if small children or animals are nearby.

Suitable Confetti & CO2 can be supplied separately by MTFX.
