## Rain Tile

MTFX Rain Tiles are used to create an indoor or outdoor falling rain effect. Each tile measures 50cm by 50cm and features 25 jet nozzles. Tiles can be configured in a range of different patterns and sizes and different nozzles can be fitted to create different effects. They can be easily mounted on truss or scaffolding poles.

### Specifications:

Length: 50cm

Height: 19.5cm

Width: 50cm

Weight:  
6.2kg (empty)  
6.7kg (with water)

Suggested for set up:  
1 or 2 persons

Duration of effect:  
Dependent on water  
supply

Additional information:  
Water supply and power  
(for pumps) required.  
Tiles can be configured  
in a range of ways, e.g
