MTFX's Smoky Effect gives you a fantastic and realistic smoke/fog effect on demand. Its easy to use, it's as simple as spraying the canister in the area you wish to fill with the effect. The spray will attach itself to any light source and create a lifelike fog or smoke effect depending on how much you spray.

1. Remove the cap from the canister.
2. Shake the Smoky Effect well.
3. Spray the canister into the area you wish to have a fog or smoke effect.
4. Remember depending how much you spray depends on the thickness of the smoke/fog
5. The effect settles instantly.
